

Secure ID solutions

Pronto printer

Single card feed printer
ideal for on demand photo
ID requirements

Kalamazoo recommend a range of ID card printers ideal for the personalisation of cards for a wide range of identification purposes.

This range of printers is fully compatible with Kalamazoo's PositivID solution and together they will provide a robust and reliable ID card printing solution.

We can supply printers to suit a variety of environments, from low volume to high volume card issuers, single or double-sided print and full colour or monochrome.

Single sided and single feed ID card printer

The Pronto printer features single card feed that allows you to produce a personalised photo ID cards on demand. It offers edge-to-edge and sharp image quality for simple and easy card printing in a compact and highly reliable package.

Its light and compact design makes it easy to transport to any location and reside on any counter or desktop.

Its intuitive design with a colour-coded status LED, USB interface and Microsoft certified plug and play driver, make the Pronto easy to use, set up and operate straight out of the box.

For protection against fraudulent copying the system can incorporate the HoloKote™ and HoloPatch® security pattern.

For extra protection you can also incorporate the Magstripe for encoding.
