

A cost effective entry level ID solution ideal for small businesses

The Pronto printer features single card feed that allows you to produce full colour and personalised photo ID cards on demand.

Pronto starter kit

Kalamazoo recognises that setting up an in-house ID system can be time consuming and expensive, that's why we are pleased to introduce the Pronto starter kit.

The Pronto starter kit incorporates all the components you need to get started in ID card production. The kit includes:

Magicard Pronto printer - Single sided hand fed printer. With Holokote card forgery protection. 4 fixed standard Holokote patterns. Prints on Holopatch cards. Print speed - 35 seconds colour, 7 seconds monochrome. Dimensions - 215mm W x 233mm H x 270mm D. 2 years limited warranty.

1 x Magicard Pro software

One colour YMCKO dye film - 300 images

100 x blank white cards

100 x high quality black lanyards

100 x black top plastic wallets

1 x Cleaning kit - includes 5 cards and 1 pen

Do you need have a backlog of cards to produce?

Kalamazoo provide a bureau service for all your production needs. We can help you produce a high quantity of cards quickly and efficiently.
