

## Secure Solutions

## Troy MICR 9050 printer

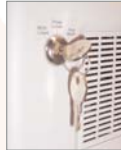

An integral part of secure document production in high-end and distributed printing environments

Cheqflow2 is fully compatible with the Troy MICR 9050 printer and combined they become a highly reliable and secure cheque printing solution. The Troy printer range offers a Magnetic Ink Character Recognition (MICR) facility. Troy printers are based on highly robust Hewlett Packard printers and use APACS approved MICR fonts.

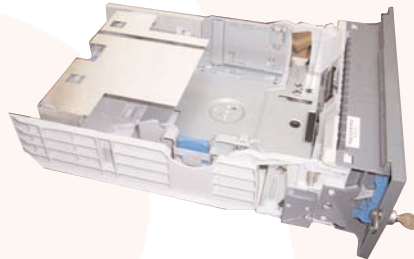

Scalable and easily tailored to your business needs, Troy printers offer a cost effective, highly secure solution for in-house secure document production.

With its robust printing capabilities, the Troy MICR 9050 printer produces 50 pages per minute and a duty cycle of 300,000 pages per month.

The 3-position printer key lock and paper tray locks help prevent cheque stock theft and printer misuse.

The TROYmark™ intelligent anti-tampering technology produces a user defined watermark, printed diagonally across each cheque to deter fraudulent cheque alteration.

ExPT™ (Exact Positioning Technology) allows users to precisely adjust the MICR line without affecting the data line.

Troy's encryption / decryption technology "unlocks" and prints the data only when it is received at the Troy printer.

Built-in MICR toner sensors and a toner-low response feature also help guarantee optimal quality.

The cheque processing performance exceeds ANSI, ABA and CBA standards.

### Troy printer security features

The 3-position printer key locks and paper tray locks reduce the risk of cheque stock theft and printer misuse

TROYmark™ is a watermark of userdefined variable data, printed diagonally across each cheque. It provides state-of-the-art deterrence against fraudulent cheque alteration

The exact positioning technology (ExPT™) allows users to precisely adjust the MICR line without affecting the data file. This functionality will significantly reduce the number of rejected cheques due to misplacement

Troy's encryption/decryption technology "unlocks" and prints the data only when it is received at the Troy printer

Troy MICR toner cartridge ensures maximum reliability and low operating costs

### Troy MICR 3015 key features

Print speed - 50 pages per minute

First page printed within 7.5 seconds

Duty cycle - 300,000 prints per month

Input capacity - (2) 500-sheet built-in paper tray

Input tray options - Tray 1: (1) 100-sheet multipurpose tray, Tray 4: one (1) 2,000-sheet tray

Output options - 3,000-sheet stacker/stapler (each requires 2,000 sheet input tray)

Built-in duplex printing for multifunctional use

Network card provided as standard

Memory - 128MB
